EXPERT TECHNIQUES IN CAROTID STENTING IN ANIMAL MODELS

Hospital Universitario de la Coruña

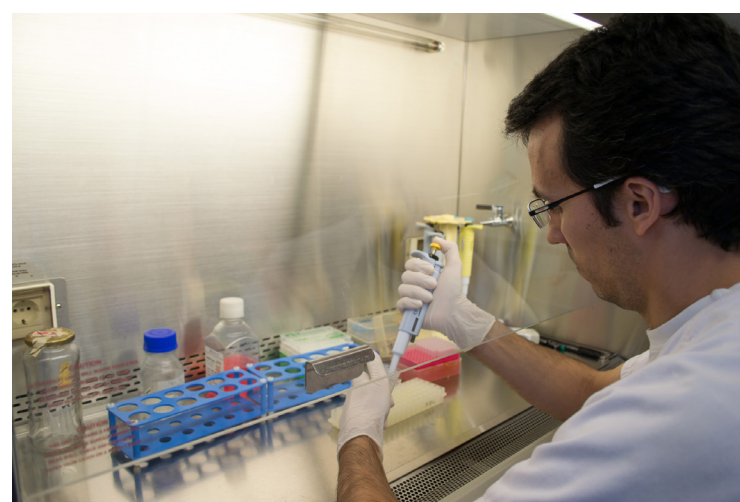

One day of Insight and collaboration

October 24th, 2018 La Coruña (Spain)

You are invited to learn from and contribute to a working session exploring the diagnosis and management of **Carotid Artery Stenting**

Objectives:

- 1.- To get to know Roadsaver Stent and Nanoparasol (EPD)
- 2.- To be familiar with the handling and delivery of Roadsaver and Nanoparasol
- 3.- To review the different anatomical / clinical indications for CAS

Course designed for Interventional Neuroradiology and focused on Carotid territory

Demonstration facilitated by

Dr. Angel Martínez Muñiz- Head of Department Interventional Neuroradiology (H. HM Modelo)

Dr. Jose Luis Díaz Valiño- Head of Department Interventional Neuroradiology (H. Universitario la Coruña)
